

Report on terrorism in India

Yash Choubey

Plotting of data on maps:

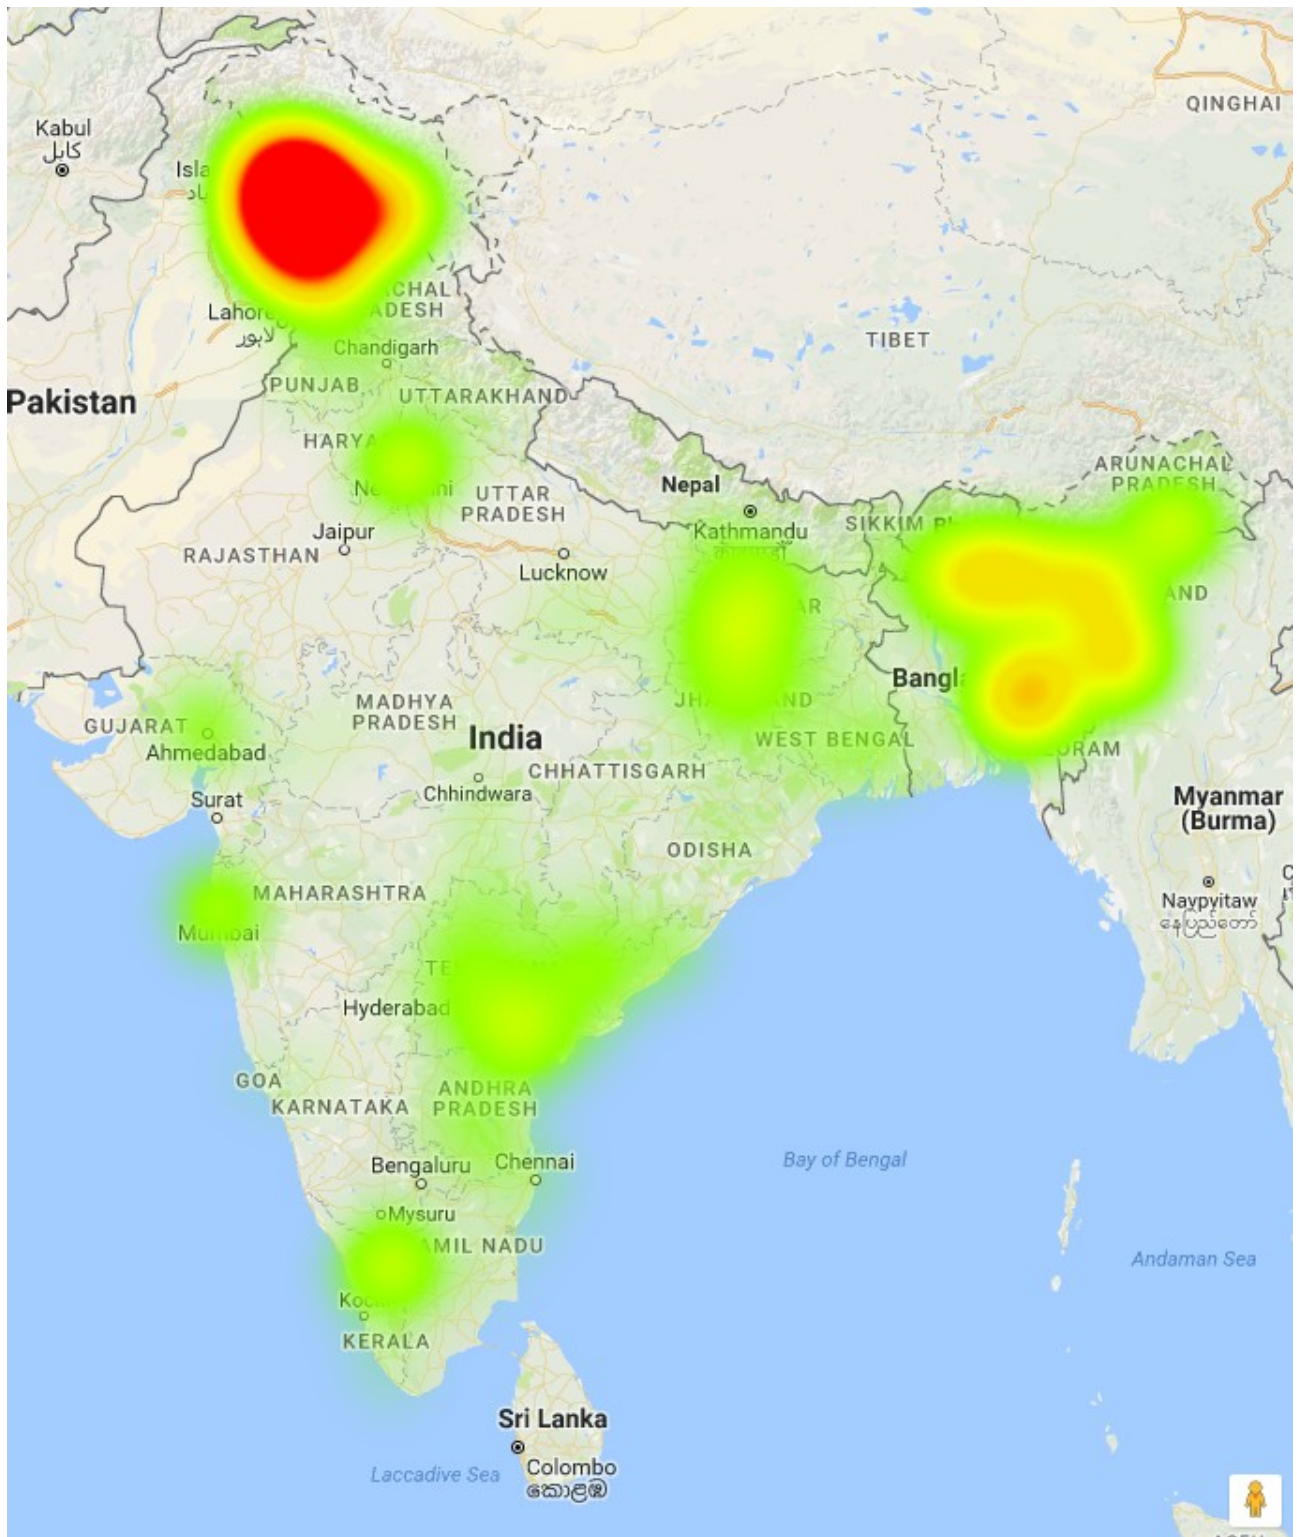

Illustration 1: Heat map of data points

I analysed the given data and came to the following conclusions:

1) Terrorism is increasing at the alarming rate :

Illustration 2: Terrorist attacks between 1975-95

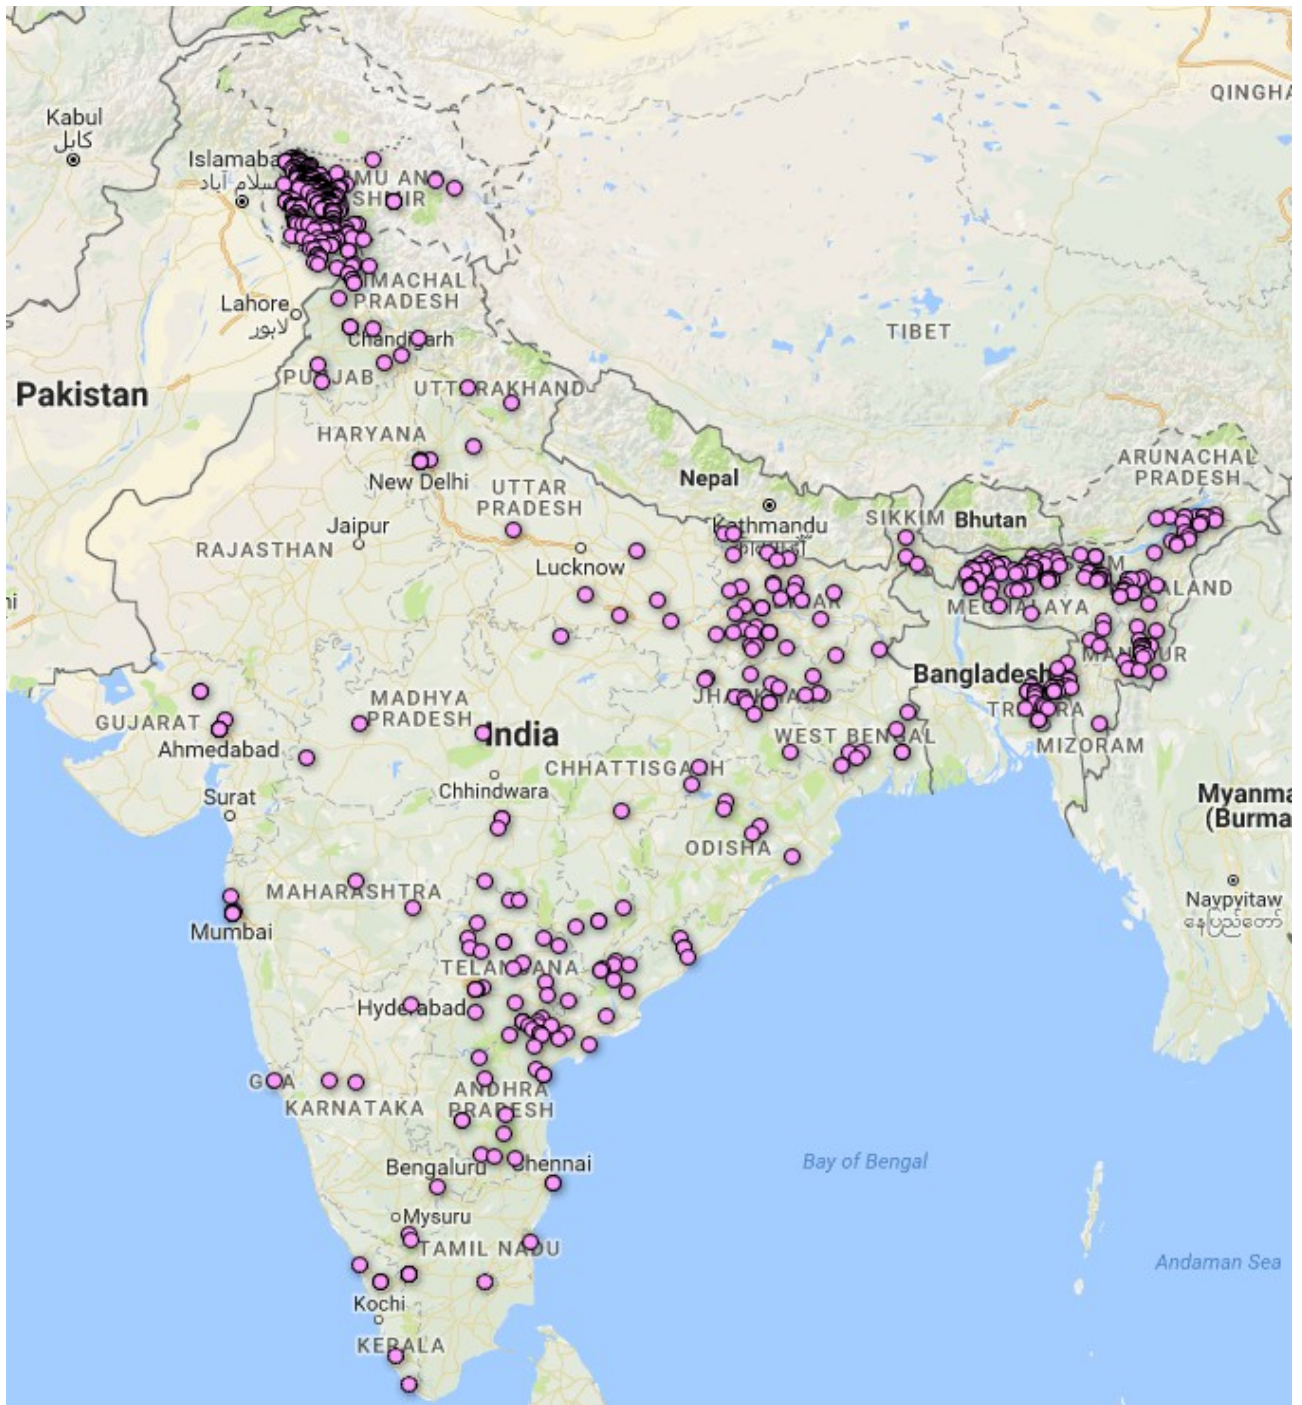

Illustration 3: Terrorist attacks between 1995-2005

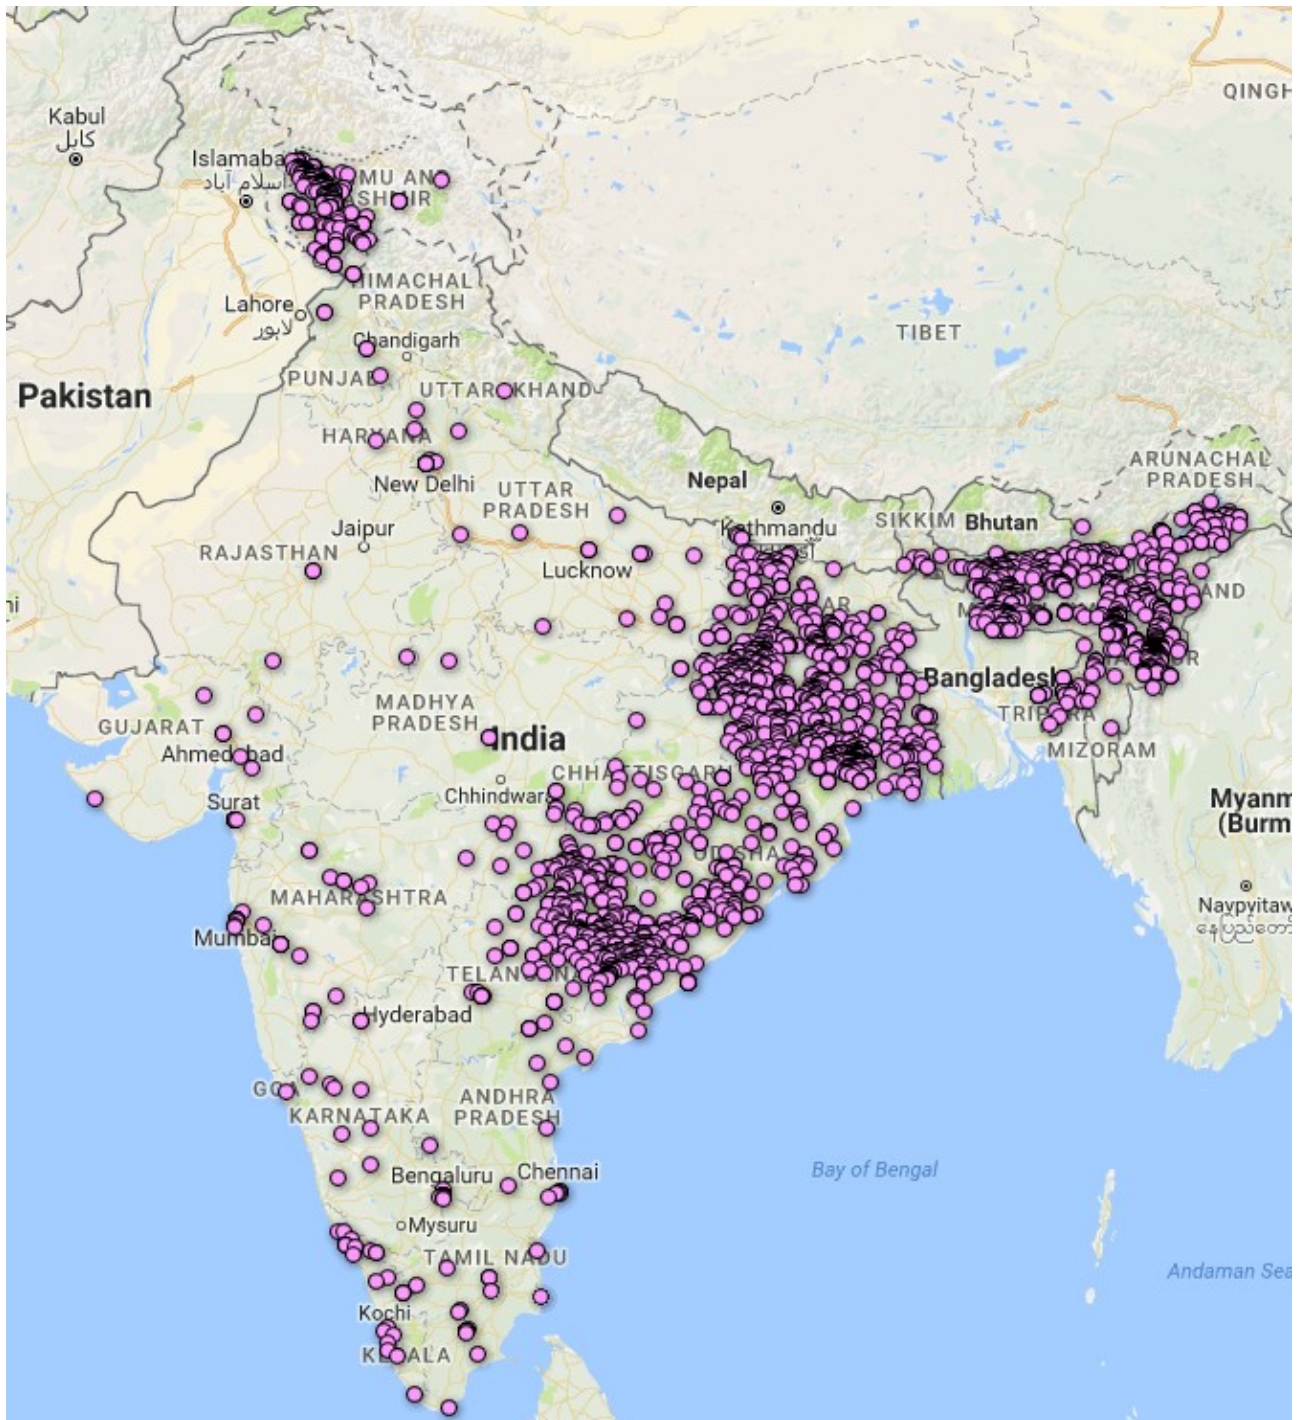

Illustration 4: Terrorist attacks between 2005-15

2) Terrorist groups are region specific:

Illustration 5: Attacks by CPI-M

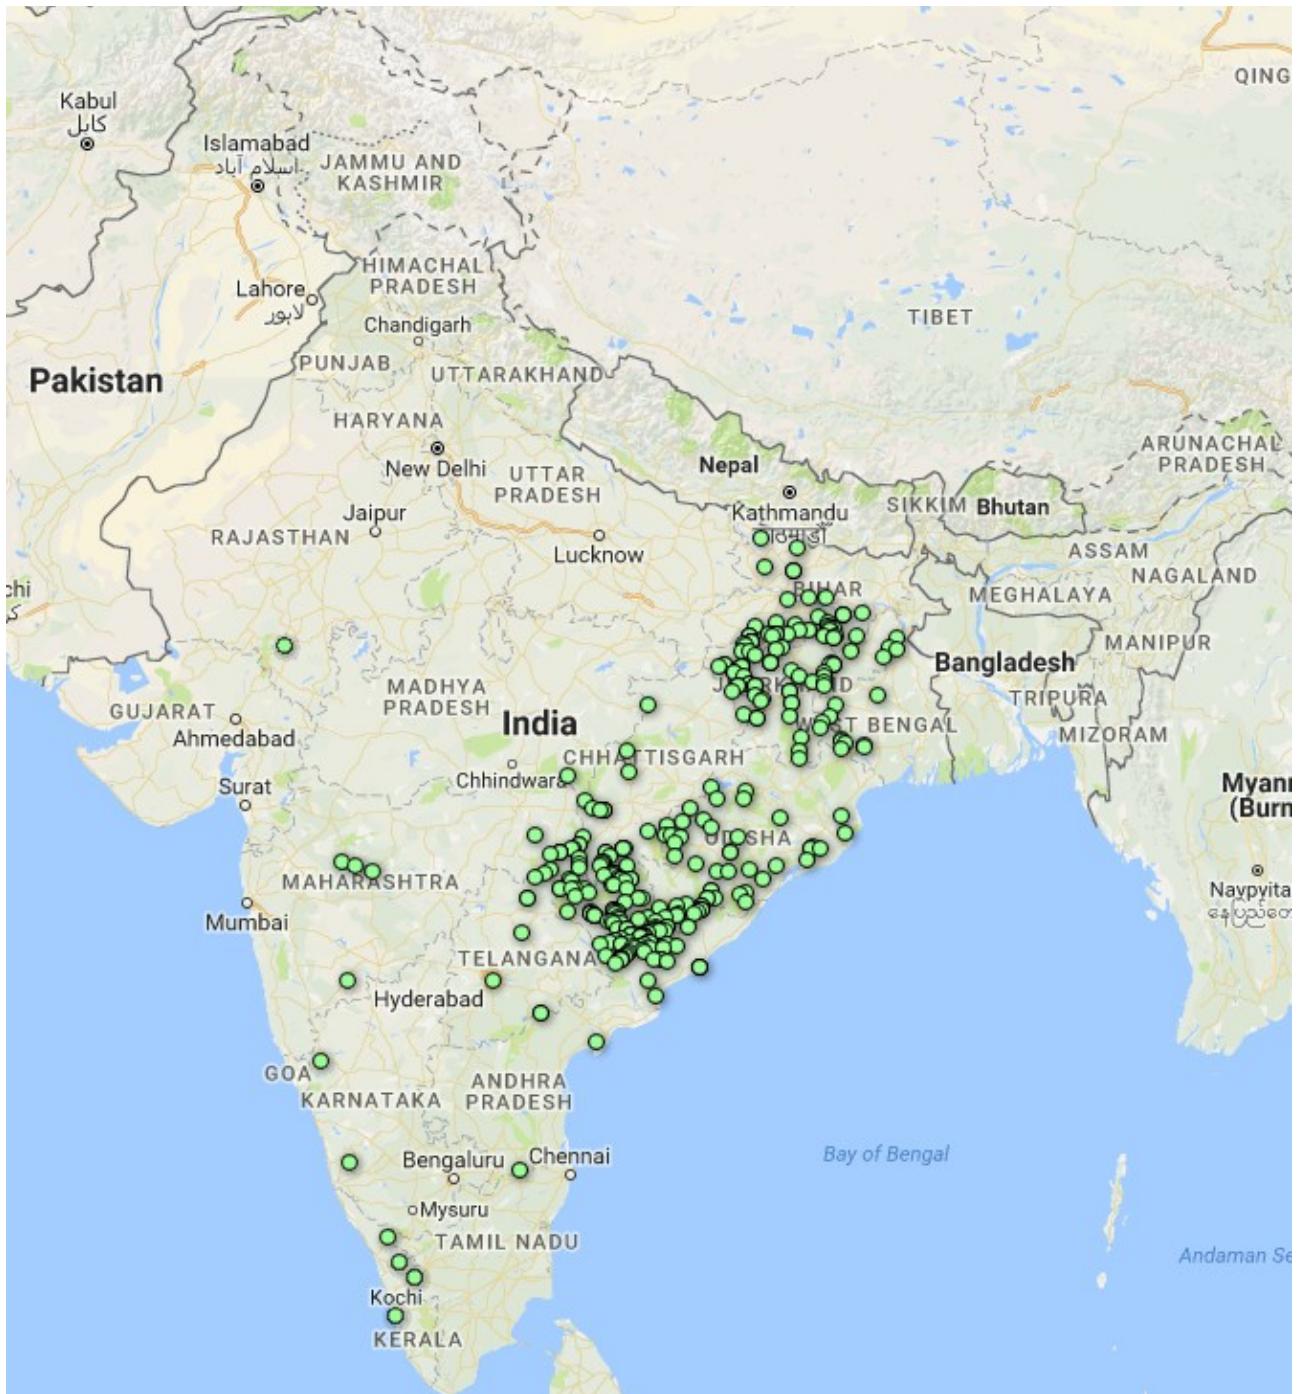

Illustration 6: Attacks Maoist

Illustration 7: Attacks by Let and HM

Illustration 8: Attacks by NDFB/ULFA/PLA/NLFT

3) We cannot segregate region on basis of type of attack:

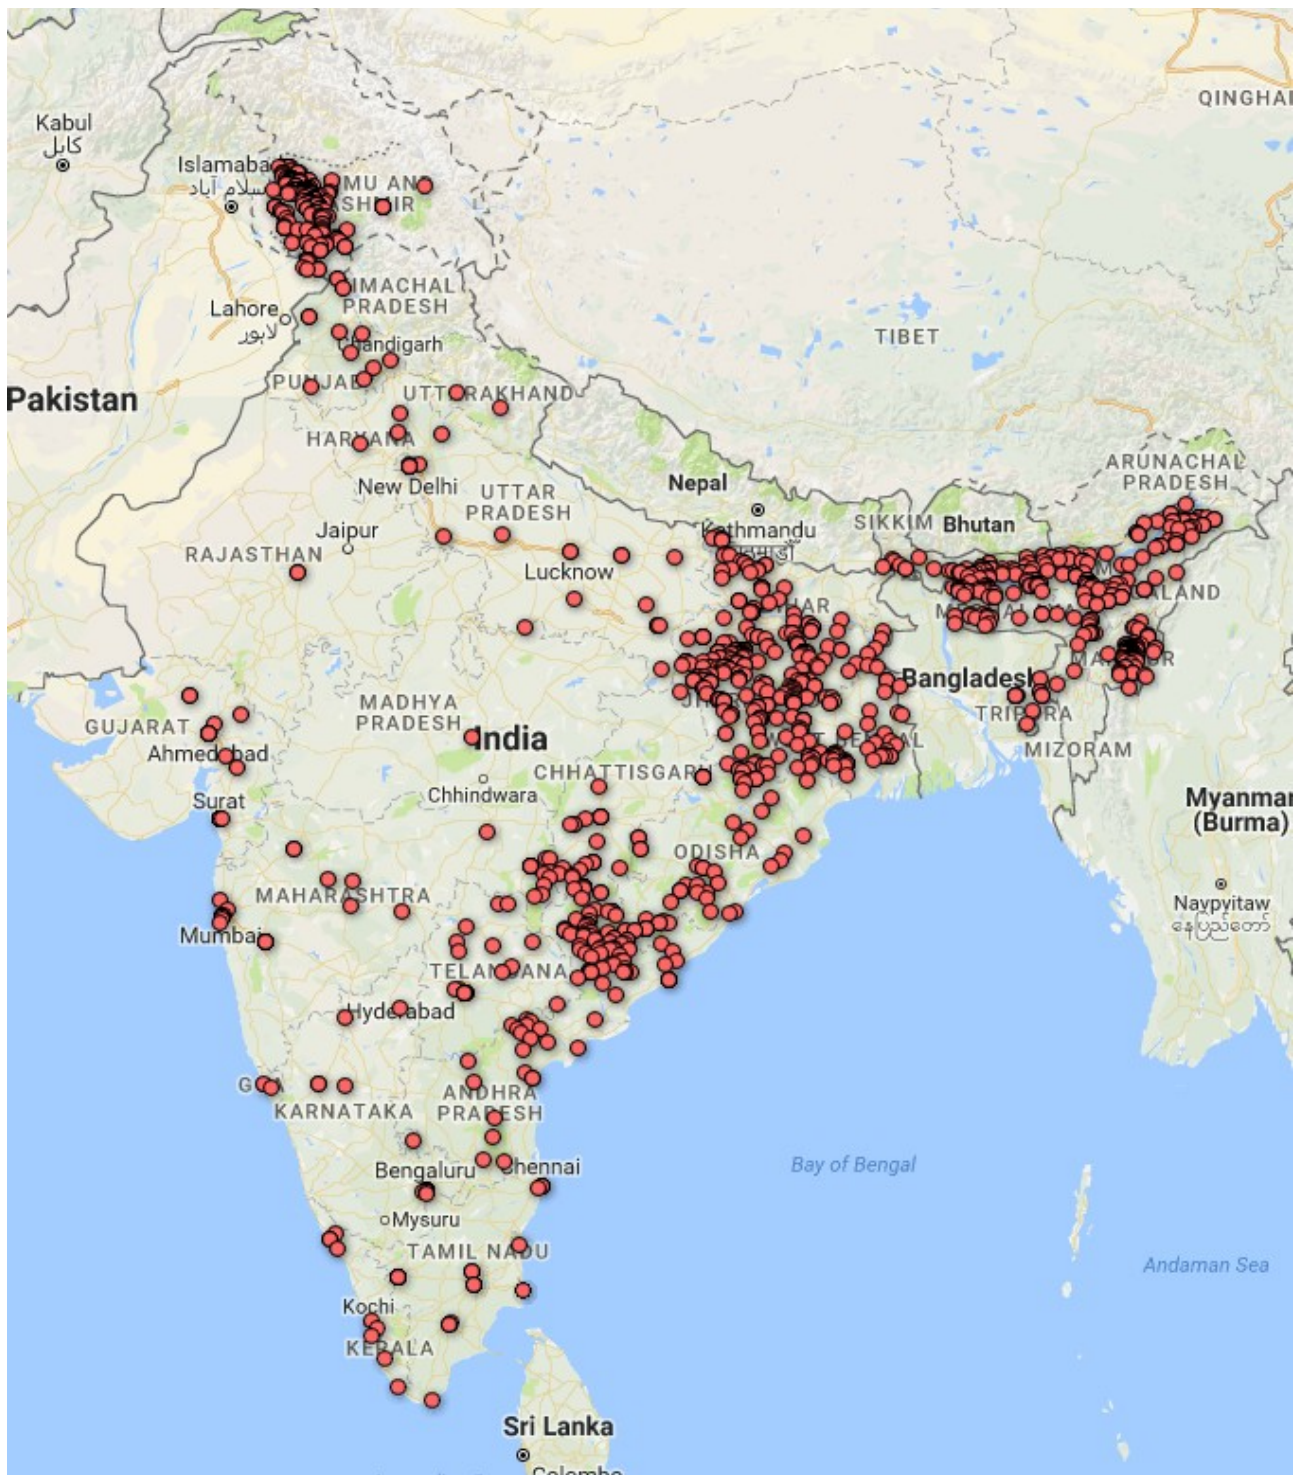

Illustration 9: Use of bombs+explosives

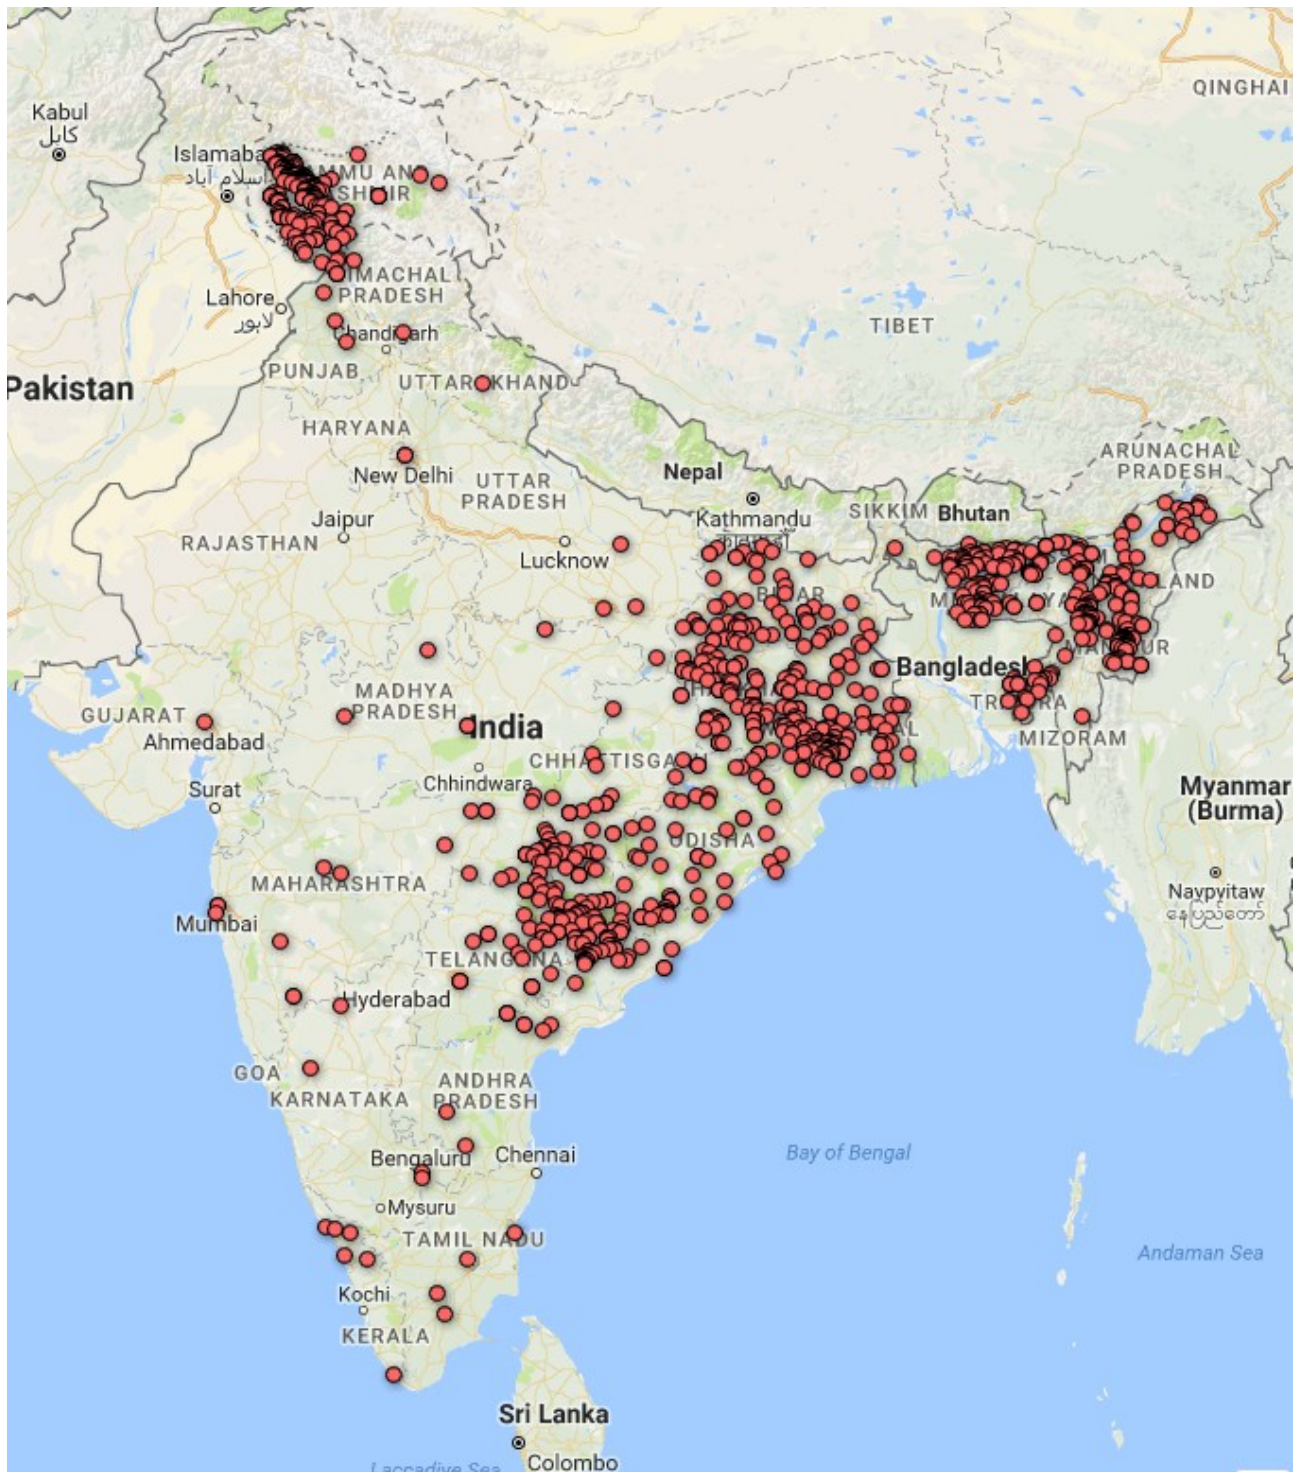

Illustration 10: Use of firearms

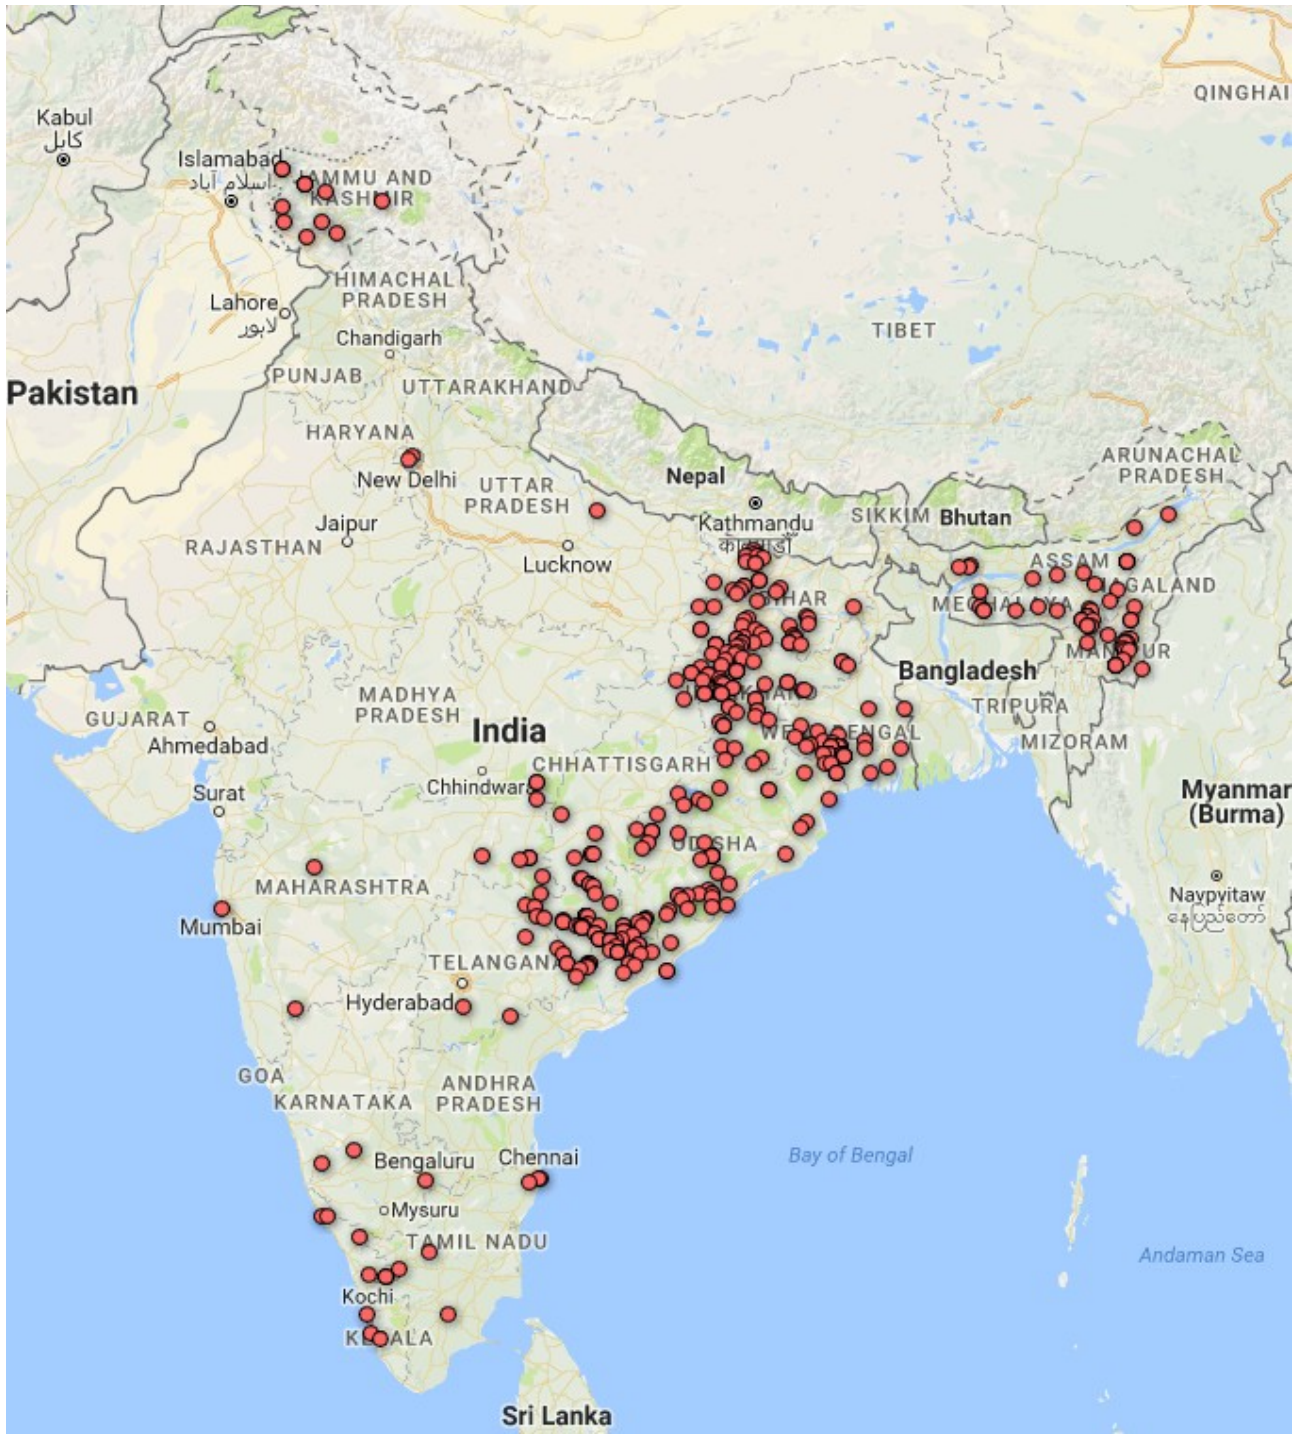

Illustration 11: Facility and infrastructure attack

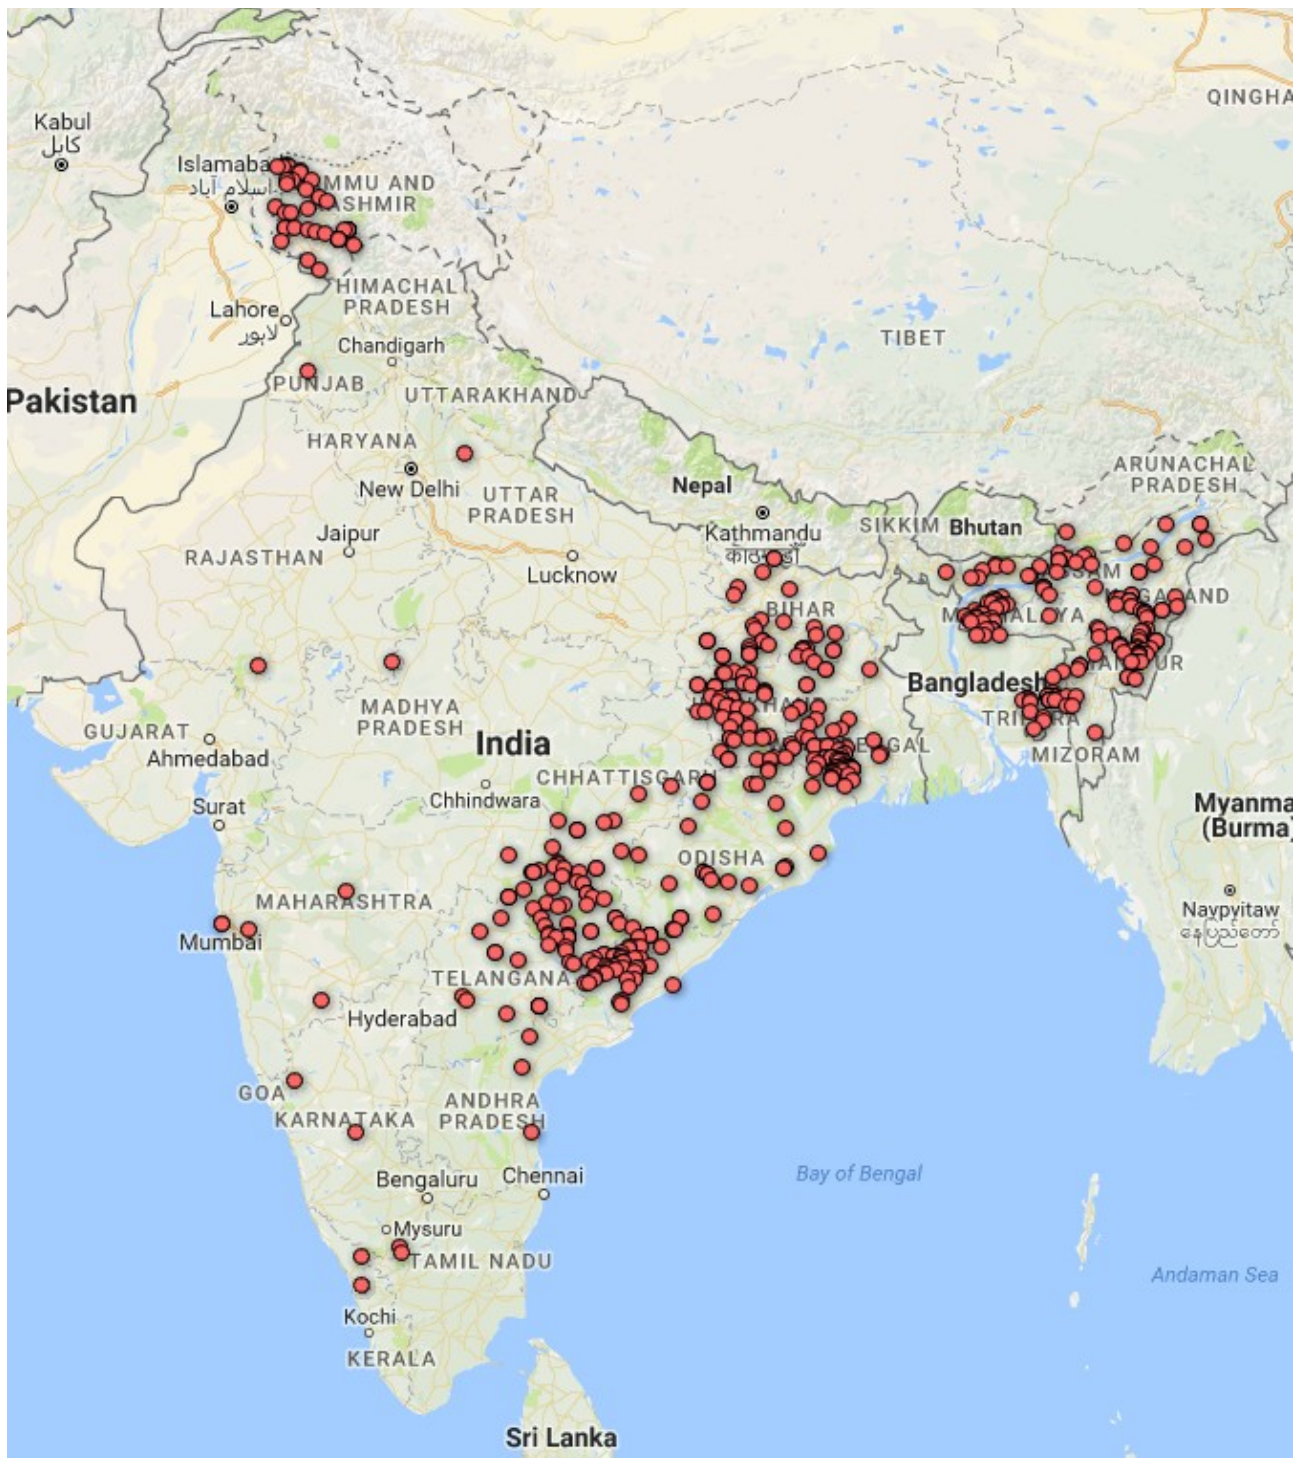

Illustration 12: Hostage Taking
